## OBJECTIVE

Results-driven student seeking to leverage 4 years of experience in software development and open-source contribution. Experienced in producing command-line apps (See [my portfolio](#) here), and interested in how production applications are built.

## PERSONAL TRAITS

- FAST LEARNER**

Able to quickly learn new technologies to adapt to different software used in different projects

- RESEARCH**

Skilled at finding information from both official and unofficial sources, where required, quickly

- PROGRAMMING**

Proficient at developing and maintaining software in C++, and Dart

- TIME MANAGEMENT**

Able to juggle multiple projects, and roles simultaneously. Have mastered prioritising deadlines and tasks

- DEDICATED**

Unwilling to give up until my objective has been achieved
